

BC301D Hospital adjustable patient electric bed

- Material: Cold rolled steel pipe bed frame, steel plate bed surface
- Bed size: Length: 215cm, Width: when the guardrail is raised: 105cm, down: 99cm
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 70cm
Lowest: 45cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim \geq 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim \geq 30^{\circ}$
- Configuration: Central control silent casters, manual operator (optional), guardrail controller, detachable PP headboard, PP guardrail, back panel angle indicator, infusion stand (optional)

BC302D 3 functional adjustable electric bed

- Material: Cold rolled steel pipe bed frame, steel plate bed surface, surface electrostatic powder spraying.
- Bed size: Length: 215cm, Width: when the guardrail is raised: 105cm, down: 99cm
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 70cm
Lowest: 45cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim \geq 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim \geq 30^{\circ}$
- Configuration: Central control silent casters, manual remote control, detachable PP headboard, PP guardrail, infusion stand (optional)

BC303D Three function patient electric bed

- Material: Cold rolled steel pipe bed frame, steel plate bed surface
- Bed size: 215*98cm (length * width)
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 70cm
Lowest: 45cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim \geq 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim \geq 30^{\circ}$
- Configuration: Silent casters, remote control, detachable PP headboard, aluminum alloy folding guardrail, infusion stand (optional)

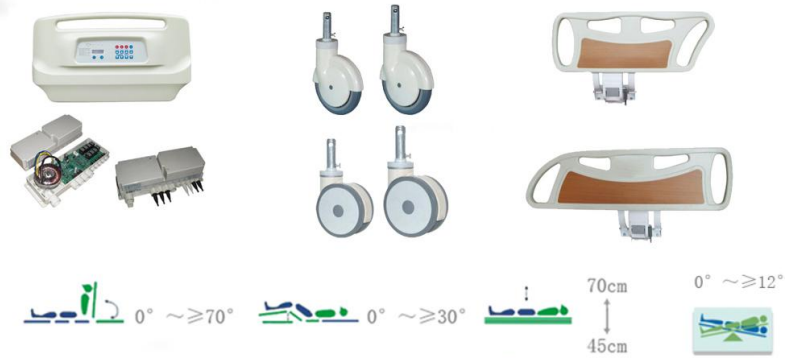

BC516D multifunction electric patient bed

- Material: Cold rolled steel pipe bed frame, steel plate bed surface, surface electrostatic powder spraying.
- Bed size: Length: 223cm, Width: when the guardrail is raised: 150cm, down: 109.5cm.
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 70cm
Lowest: 45cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim \geq 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim \geq 30^{\circ}$
The overall forward inclination angle of the bed surface $0^{\circ} \sim \geq 12^{\circ}$
The whole bed surface tilt angle $0^{\circ} \sim \geq 12^{\circ}$
- Configuration: Silent casters, nurse controller (optional), manual operator, detachable PP headboard, metal folding guardrail, one-handed operation "cardiopulmonary resuscitation position" to quickly release CPR, infusion stand (optional)

BC504D Multifunctional advanced electric bed

- Material: Cold rolled steel pipe bed frame, steel plate bed surface
- Bed size: Length: 223cm, Width: when the guardrail is raised: 105cm, down: 99cm.
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 76cm
Lowest: 52cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim \geq 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim \geq 30^{\circ}$
- The overall forward inclination angle of the bed surface $0^{\circ} \sim \geq 12^{\circ}$
The whole bed surface tilt angle $0^{\circ} \sim \geq 12^{\circ}$
- Configuration: L: Central control silent casters, controller (optional), barrier controller, detachable PP headboard, footboard, PP guardrail, backboard angle indicator, one-handed operation "cardiopulmonary resuscitation position", infusion stand (optional), Electronic automatic weighing system (optional)

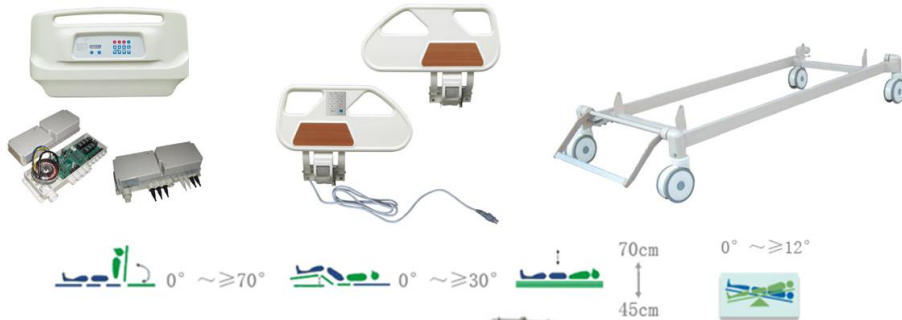

BC505D Multifunctional luxury electric bed

- Material: Cold rolled steel pipe bed frame, steel plate bed surface, surface electrostatic powder spraying.
- Bed size: Length: 223cm, Width: when the guardrail is raised: 105cm, down: 99cm.
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 70cm
Lowest: 45cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim \geq 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim \geq 30^{\circ}$
The overall forward inclination angle of the bed surface $0^{\circ} \sim \geq 12^{\circ}$
The whole bed surface tilt angle $0^{\circ} \sim \geq 12^{\circ}$
- Configuration: Central control silent casters, nurse controller (optional), guardrail controller, detachable PP headboard, footboard, PP guardrail, backboard angle indicator, one-handed operation "cardiopulmonary resuscitation position", infusion stand (optional)

BC506D Multifunction luxury electric bed

- Material: Cold rolled steel pipe bed frame, steel plate bed surface
- Bed size: Length: 223cm, Width: when the guardrail is raised: 105cm, down: 99cm.
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 70cm
Lowest: 45cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim 30^{\circ}$
- The overall forward inclination angle of the bed surface $0^{\circ} \sim 12^{\circ}$
The whole bed surface tilt angle $0^{\circ} \sim 12^{\circ}$
- Configuration: Central control silent casters, guardrail controller, detachable PP headboard, footboard, PP guardrail, backboard angle indicator, one-handed operation "cardiopulmonary resuscitation position", infusion stand (optional)

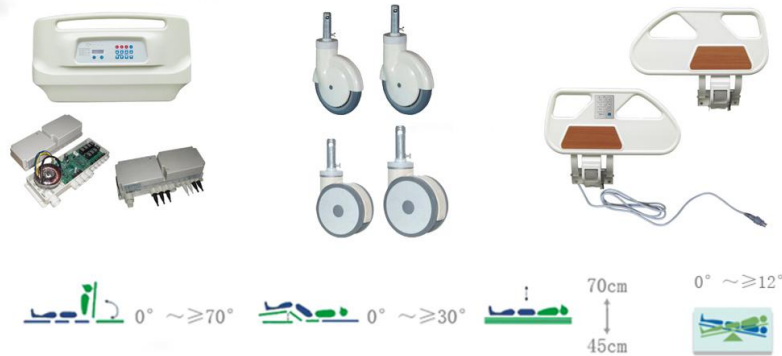

BC507D multifunction electric hospital bed

- Material: Cold rolled steel pipe bed frame, steel plate bed surface, surface electrostatic powder spraying.
- Bed size: Length: 223cm, Width: when the guardrail is raised: 105cm, down: 99cm.
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 70cm
Lowest: 45cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim 30^{\circ}$
- The overall forward inclination angle of the bed surface $0^{\circ} \sim 12^{\circ}$
The whole bed surface tilt angle $0^{\circ} \sim 12^{\circ}$
- Configuration: Central control silent casters, liftable guide wheels, nurse controller (optional), guardrail controller, detachable PP headboard, footboard, PP guardrail, backboard angle indicator, one-handed operation "cardiopulmonary resuscitation position", infusion Rack (optional)

BC508D Medical luxury electric bed

- Material: Cold rolled steel pipe bed frame, steel plate bed surface
- Bed size: Length: 223cm, Width: when the guardrail is raised: 105cm, down: 99cm.
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 76cm
Lowest: 52cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim \geq 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim \geq 30^{\circ}$
- The overall forward inclination angle of the bed surface $0^{\circ} \sim \geq 12^{\circ}$
The whole bed surface tilt angle $0^{\circ} \sim \geq 12^{\circ}$
- Configuration: Central control silent casters, controller (optional), barrier controller, detachable PP headboard, footboard, PP guardrail, backboard angle indicator, one-handed operation "cardiopulmonary resuscitation position", infusion stand (optional)

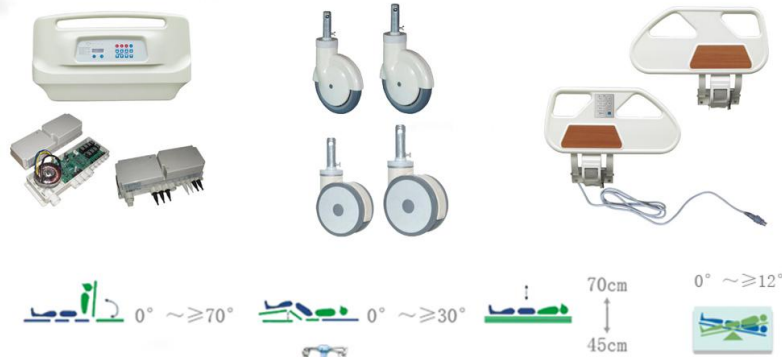

BC509D Hospital electric bed

- Material: Cold rolled steel pipe bed frame, steel plate bed surface, surface electrostatic powder spraying.
- Bed size: Length: 223cm, Width: when the guardrail is raised: 105cm, down: 99cm.
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 76cm
Lowest: 52cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim \geq 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim \geq 30^{\circ}$
- The overall forward inclination angle of the bed surface $0^{\circ} \sim \geq 12^{\circ}$
The whole bed surface tilt angle $0^{\circ} \sim \geq 12^{\circ}$
- Configuration: Central control silent casters, nurse controller (optional), guardrail controller, detachable PP headboard, footboard, PP guardrail, backboard angle indicator, one-handed operation "cardiopulmonary resuscitation position", infusion stand (optional)

BC511D Multifunctional weighing electric bed

- Material: Cold rolled steel pipe bed frame, steel plate bed surface
- Bed size: Length: 223cm, Width: when the guardrail is raised: 105cm, down: 99cm.
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 76cm
Lowest: 52cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim \geq 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim \geq 30^{\circ}$
- The overall forward inclination angle of the bed surface $0^{\circ} \sim \geq 12^{\circ}$
The whole bed surface tilt angle $0^{\circ} \sim \geq 12^{\circ}$
- Configuration: Central control silent casters, controller (optional), barrier controller, detachable PP headboard, footboard, PP guardrail, backboard angle indicator, one-handed operation "cardiopulmonary resuscitation position", infusion stand (optional), Electronic automatic weighing system (optional)

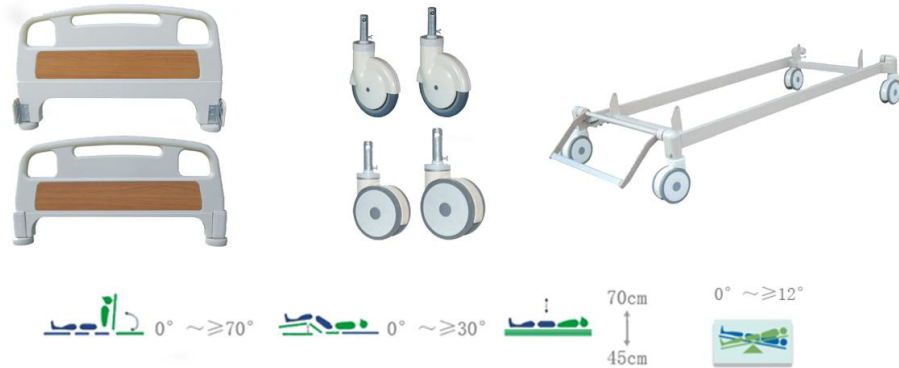

BC514D Hospital luxury electric bed

- Material: Cold rolled steel pipe bed frame, steel plate bed surface, surface electrostatic powder spraying.
- Bed size: Length: 223cm, Width: when the guardrail is raised: 105cm, down: 99cm.
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 70cm
Lowest: 45cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim \geq 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim \geq 30^{\circ}$
The overall forward inclination angle of the bed surface $0^{\circ} \sim \geq 12^{\circ}$
The whole bed surface tilt angle $0^{\circ} \sim \geq 12^{\circ}$
- Configuration: Central control silent casters, nurse controller (optional), guardrail controller, detachable PP headboard, footboard, PP guardrail, backboard angle indicator, infusion stand (optional)

BC515D Hospital electric bed

- Material: Cold rolled steel pipe bed frame, ABS bed surface
- Bed size: Length: 215cm, Width: when the guardrail is raised: 105cm, down: 99cm.
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 70cm
Lowest: 45cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim \geq 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim \geq 30^{\circ}$
- The overall forward inclination angle of the bed surface $0^{\circ} \sim \geq 12^{\circ}$
The whole bed surface tilt angle $0^{\circ} \sim \geq 12^{\circ}$
- Configuration: Central control silent casters, Manual controller, detachable PP headboard, footboard, PP guardrail, IV pole (optional)

BC517D Medical electric bed

- Material: Cold rolled steel pipe bed frame, steel plate bed surface, surface electrostatic powder spraying.
- Bed size: 215*98cm (length * width)
- Board size: 196*90cm (Length * width), Height of bed surface: Highest: 70cm
Lowest: 45cm
- Basic parameters: Folding angle of back panel $0^{\circ} \sim \geq 70^{\circ}$
Folding angle of leg plate $0^{\circ} \sim \geq 30^{\circ}$
The overall forward inclination angle of the bed surface $0^{\circ} \sim \geq 12^{\circ}$
The whole bed surface tilt angle $0^{\circ} \sim \geq 12^{\circ}$
- Configuration: Central control silent casters, nurse controller, detachable PP headboard, footboard, aluminum alloy folding guardrail, infusion stand (optional)
